JOURNAL OF ELECTRON SPECTROSCOPY and Related Phenomena

Subject index

Acetylacetonate
Effect of γ substitution on the X-ray emission spectra and electronic structure of iron(III) and cobalt(III) acetylacetonates 83
Adsorbate
Polarization and extra-atomic relaxation on the surface and in the bulk of solids: the influence of the molecular shape, polarizability and complex nature of the adsorbate 207
AES
Angular resolved autoionization spectroscopy of N_2 on Ni(110) 197
Effect of physical and chemical adsorption of water molecules on $YBa_2Cu_3O_{7-\delta}$ surface composition 161
Graduation of electron spectrometer intensity scale. Part 1. A theoretical approach 245
Graduation of electron spectrometer intensity scale. Part 2. How to do it 251
KLL and *LMM* Auger peak intensity ratio dependence on bond ionicity 193
The polyimide (PMDA/ODA)–titanium interface. Part 1. Untreated PMDA/ODA: an XPS, AES, AFM and Raman Study 11
AFM
The polyimide (PMDA/ODA)–titanium interface. Part 1. Untreated PMDA/ODA: an XPS, AES, AFM and Raman study 11
Alkali
Multiple surface plasmon excitations in overlayers of K and Na on Ru(001) 103
Alloy
Auger parameter studies of amorphous CuHf alloys 73
ARXPS
Quantitative ARXPS depth profiling characterisation of native oxides grown on $In_{0.53}Ga_{0.47}As(100)$ single crystals 129
Auger
Auger parameter studies of amorphous CuHf alloys 73
Effects of level-crossing interaction and nuclear transformation processes on the L_3–MM Auger spectrum of $^{155}_{64}Gd$ 51
KLL and *LMM* Auger peak intensity ratio dependence on bond ionicity 193
X-ray excited *KLL* and *KLM* Auger spectra of manganese 183
Autoionization
Angular resolved autoionization spectroscopy of N_2 on Ni(110) 197

BIS
Unoccupied electronic states of CuO and Cu_2O studied by secondary electron emission 45
Bicycloalkane
Electronic structure of substituted bicycloheptanones (camphors) 259
Bond ionicity
KLL and *LMM* Auger peak intensity ratio dependence on bond ionicity 193

Camphor
Electronic structure of substituted bicycloheptanones (camphors) 259
Carbon disulphide
An alternative interpretation of $CS_2^{-\cdot}$ resonant states 95
Carbon fibre
Activation of carbon fibres by negative d.c. corona discharge at ambient pressure and temperature 1
Carbon tetrafluoride
Threshold photoelectron spectroscopy of CF_4 up to 60.5 eV 29
Catalyst 4
Quantitative XPS studies of a natural catalyst 225
Chlorothioboron
Geometries of thioborine and chlorothioboron cations 39
Chromium hexacarbonyl
Theoretical study of core ionized $Cr(CO)_6$ 233
CI
Comparative photoemission studies of $Bi_{2-x}Pb_xSr_2Ca_{n-1}Cu_nO_{2n+4+y}$ ($n = 2, 3$) 61
ClBS
Geometries of thioborine and chlorothioboron cations 39

CNDO
Angular resolved autoionization spectroscopy of N_2 on Ni(110) 197
Cobalt compound
Effect of γ substitution on the X-ray emission spectra and electronic structure of iron(III) and cobalt(III) acetylacetonates 83
Copper
Auger parameter studies of amorphous CuHf alloys 73
Copper oxide
Unoccupied electronic states of CuO and Cu_2O studied by secondary electron emission 45
$Cr(CO)_6$
Theoretical study of core ionized $Cr(CO)_6$ 233
Cuprate
Comparative photoemission studies of $Bi_{2-x}Pb_xSr_2Ca_{n-1}Cu_nO_{2n+4+y}$ ($n = 2, 3$) 61

D.C. corona discharge
Activation of carbon fibres by negative d.c. corona discharge at ambient pressure and temperature 1
Depth profile
XPS study of the $In_xGa_{1-x}As/GaAs$ superlattice 145
Dirac–Slater
Theoretical study of the valence photoelectron spectrum of UF_6 89
DOS
Unoccupied electronic states of CuO and Cu_2O studied by secondary electron emission 45
DTA
Effect of physical and chemical adsorption of water molecules on $YBa_2Cu_3O_{7-\delta}$ surface composition 161
DV-DS
Theoretical study of the valence photoelectron spectrum of UF_6 89

EEAD
Graduation of electron spectrometer intensity scale. Part 2. How to do it 251
EELS
An alternative interpretation of $CS_2^{-\cdot}$ resonant states 95
Electron impact spectroscopy of SiF_4 and GeF_4 151
Multiple surface plasmon excitations in overlayers of K and Na on Ru(001) 103
ESCA-200
A very high resolution electron spectrometer 117

Fermi
A study of the electronic structure of $GdMn_2$ by appearance potential spectroscopy (SXAPS) 23
Franck–Condon
Geometries of thioborine and chlorothioboron cations 39
Furanone
Application of an He I photoelectron spectroscopic (UPS) technique to the kinetic study of chemical reactions. Determination of the kinetic parameters of the conversion reaction of 2(3H) to 2(5H) furanone 173
He I photoelectron spectroscopic studies of the electronic structure of 2(3H) furanone and 2(5H) furanone 167

Gadolinium
Effects of level-crossing interaction and nuclear transformation processes on the L_3-MM Auger spectrum of $^{155}_{64}Gd$ 51
$GdMn_2$
A study of the electronic structure of $GdMn_2$ by appearance potential spectroscopy (SXAPS) 23
Germanium tetrafluoride
Electron impact spectroscopy of SiF_4 and GeF_4 151
Graduation
Graduation of electron spectrometer intensity scale. Part 1. A theoretical approach 245
Graduation of electron spectrometer intensity scale. Part 2. How to do it 251

Hafnium
Auger parameter studies of amorphous CuHf alloys 73
HBS
Geometries of thioborine and chlorothioboron cations 39
HTS
Comparative photoemission studies of $Bi_{2-x}Pb_xSr_2Ca_{n-1}Cu_nO_{2n+4+y}$ ($n = 2, 3$) 61
Effect of physical and chemical adsorption of water molecules on $YBa_2Cu_3O_{7-\delta}$ surface composition 161

InGaAs
Quantitative ARXPS depth profiling characterisation of native oxides grown on $In_{0.53}Ga_{0.47}As(100)$ single crystals 129
XPS study of the $In_xGa_{1-x}As/GaAs$ superlattice 145
Instrument
A very high resolution electron spectrometer 117
Graduation of electron spectrometer intensity scale. Part 1. A theoretical approach 245
Graduation of electron spectrometer intensity scale. Part 2. How to do it 251
Intermetallic compound
A study of the electronic structure of $GdMn_2$ by appearance potential spectroscopy (SXAPS) 23
Ionization energy
Electronic structure of substituted bicycloheptanones (camphors) 259

Ionization potential
He I photoelectron spectroscopic studies of the electronic structure of 2(3H) furanone and 2(5H) furanone 167
Iron compound
Effect of γ substitution on the X-ray emission spectra and electronic structure of iron(III) and cobalt(III) acetylacetonates 83
Isomer
Application of an He I photoelectron spectroscopic (UPS) technique to the kinetic study of chemical reactions. Determination of the kinetic parameters of the conversion reaction of 2(3H) to 2(5H) furanone 173
He I photoelectron spectroscopic studies of the electronic structure of 2(3H) furanone and 2(5H) furanone 167
IXPD
Inverted photoelectron diffraction: a new technique for surface structure determination 217

Kinetics
Application of an He I photoelectron spectroscopic (UPS) technique to the kinetic study of chemical reactions. Determination of the kinetic parameters of the conversion reaction of 2(3H) to 2(5H) furanone 173

L_3–MM
Effects of level-crossing interaction and nuclear transformation processes on the L_3–MM Auger spectrum of $^{155}_{64}$Gd 51
Lactone
Application of an He I photoelectron spectroscopic (UPS) technique to the kinetic study of chemical reactions. Determination of the kinetic parameters of the conversion reaction of 2(3H) to 2(5H) furanone 179
He I photoelectron spectroscopic studies of the electronic structure of 2(3H) furanone and 2(5H) furanone 167
LEED
Angular resolved autoionization spectroscopy of N_2 on Ni(110) 197

Mixed oxide
Quantitative ARXPS depth profiling characterisation of native oxides grown on $In_{0.53}Ga_{0.47}As(100)$ single crystals 129
MOCVD
XPS study of the $In_xGa_{1-x}As/GaAs$ superlattice 145

Nitrogen
Angular resolved autoionization spectroscopy of N_2 on Ni(110) 197

Ni(110)
Angular resolved autoionization spectroscopy of N_2 on Ni(110) 197
Novel
A very high resolution electron spectrometer 117
Inverted photoelectron diffraction: a new technique for surface structure determination 217

Oxide
Quantitative ARXPS depth profiling characterisation of native oxides grown on $In_{0.53}Ga_{0.47}As(100)$ single crystals 129

PES
Electronic structure of substituted bicycloheptanones (camphors) 259
Plasmon
Multiple surface plasmon excitations in overlayers of K and Na on Ru(001) 103
PMDA/ODA
The polyimide (PMDA/ODA)–titanium interface. Part 1. Untreated PMDA/ODA: an XPS, AES, AFM and Raman study 11
Polarization
Polarization and extra-atomic relaxation on the surface and in the bulk of solids: the influence of the molecular shape, polarizability and complex nature of the adsorbate 207
Polyimide
The polyimide (PMDA/ODA)–titanium interface. Part 1. Untreated PMDA/ODA: an XPS, AES, AFM and Raman study 11

Raman
The polyimide (PMDA/ODA)–titanium interface. Part 1. Untreated PMDA/ODA: an XPS, AES, AFM and Raman study 11
RDEA
An alternative interpretation of $CS_2^{-\cdot}$ resonant states 93
Relaxation
Polarization and extra-atomic relaxation on the surface and in the bulk of solids: the influence of the molecular shape, polarizability and complex nature of the adsorbate 207
Unoccupied electronic states of CuO and Cu_2O studied by secondary electron emission 45
Resonant state
An alternative interpretation of $CS_2^{-\cdot}$ resonant states 95
Ru(001)
Multiple surface plasmon excitations in overlayers of K and Na on Ru(001) 103

SAXPS
XPS study of the $In_xGa_{1-x}As/GaAs$ superlattice 145
SEE
Unoccupied electronic states of CuO and Cu_2O studied by secondary electron emission 45
SEM
Activation of carbon fibres by negative d.c. corona discharge at ambient pressure and temperature 1
SES-200
A very high resolution electron spectrometer 117
Shake up
Theoretical study of core ionized $Cr(CO)_6$ 233
Silicon tetrafluoride
Electron impact spectroscopy of SiF_4 and GeF_4 151
Superconductor
Comparative photoemission studies of $Bi_{2-x}Pb_xSr_2Ca_{n-1}Cu_nO_{2n+4+y}$ ($n = 2, 3$) 61
Effect of physical and chemical adsorption of water molecules on $YBa_2Cu_3O_{7-\delta}$ surface composition 161
Superlattice
XPS study of the $In_xGa_{1-x}As/GaAs$ superlattice 145
SXAPS
A study of the electronic structure of $GdMn_2$ by appearance potential spectroscopy (SXAPS) 23

TG
Effect of physical and chemical adsorption of water molecules on $YBa_2Cu_3O_{7-\delta}$ surface composition 161
Thioborine
Geometries of thioborine and chlorothioboron cations 39
TPES
Threshold photoelectron spectroscopy of CF_4 up to 60.5 eV 29

UF_6
Theoretical study of the valence photoelectron spectrum of UF_6 89
UPS
A very high resolution electron spectrometer 117
Application of an He I photoelectron spectroscopic (UPS) technique to the kinetic study of chemical reactions. Determination of the kinetic parameters of the conversion reaction of 2(3H) to 2(5H) furanone 173
Electronic structure of substituted bicycloheptanones (camphors) 259
He I photoelectron spectroscopic studies of the electronic structure of 2(3H) furanone and 2(5H) furanone 167
Uranium hexafluoride
Theoretical study of the valence photoelectron spectrum of UF_6 89
UVPES
Comparative photoemission studies of $Bi_{2-x}Pb_xSr_2Ca_{n-1}Cu_nO_{2n+4+y}$ ($n = 2, 3$) 61
Effect of γ substitution on the X-ray emission spectra and electronic structure of iron(III) and cobalt(III) acetylacetonates 83

Water
Effect of physical and chemical adsorption of water molecules on $YBa_2Cu_3O_{7-\delta}$ surface composition 161

XAES
Activation of carbon fibres by negative d.c. corona discharge at ambient pressure and temperature 1
X-ray excited *KLL* and *KLM* Auger spectra of manganese 183
Xα-DV
Effect of γ substitution on the X-ray emission spectra and electronic structure of iron(III) and cobalt(III) acetylacetonates 83
XES
Effect of γ substitution on the X-ray emission spectra and electronic structure of iron(III) and cobalt(III) acetylacetonates 83
XPD
Inverted photoelectron diffraction: a new technique for surface structure determination 217
XPS
A very high resolution electron spectrometer 117
Activation of carbon fibres by negative d.c. corona discharge at ambient pressure and temperature 1
Auger parameter studies of amorphous CuHf alloys 73
Comparative photoemission studies of $Bi_{2-x}Pb_xSr_2Ca_{n-1}Cu_nO_{2n+4+y}$ ($n = 2, 3$) 61
Quantitative XPS studies of a natural catalyst 225
The polyimide (PMDA/ODA)–titanium interface. Part 1. Untreated PMDA/ODA: an XPS, AES, AFM and Raman study 11
Theoretical study of the valence photoelectron spectrum of UF_6 89
X-ray excited *KLL* and *KLM* Auger spectra of manganese 183
XPS study of the $In_xGa_{1-x}As/GaAs$ superlattice 145
